
90-Day Fast-Launch GTM Roadmap

Launch fast. Create content consistently. Drive registrations and app downloads. Optimize every week.

Move quickly, then learn continuously

Taskiz is ready for a focused campaign to generate interest, drive downloads, increase registrations, and validate demand with contractors.

Launch within the first 7 days. Then use the next 90 to publish consistent organic content, run paid ads, build lead pipelines, test funnels, and optimize weekly on real market data.

THE STRATEGY IN ONE LINE

Launch fast. Create content consistently. Drive registrations and downloads. Optimize every week.

 CORE CAMPAIGN OBJECTIVE

Turn contractor interest into measurable action

Help contractors see Taskiz as a simple mobile app to manage their business from the field.

Website registrations	App downloads	Beta users	Demo requests
Contractor leads	Early product feedback	Initial testimonials	Validated demand

— CORE POSITIONING

A simple mobile business app for contractors

MAIN MESSAGE

**Run your contracting business from
your phone.**

CAMPAIGN ANGLE

**Stop running your contracting business
from five different apps.**

SUPPORTING MESSAGE

Taskiz helps contractors manage customers, jobs, schedules, estimates, and invoices in one simple mobile app.

— TARGET AUDIENCE

Solo handymen and small general contractors first

PRIMARY TARGET

Solo handyman businesses and small general contractors.

SECONDARY AUDIENCES TO TEST

- Remodelers
- Painters
- Landscapers
- Cleaning businesses
- Electricians
- Plumbers

Goal: learn which contractor segment responds best to the Taskiz message.

Four channels, one funnel

01	02	03	04
Organic content	Paid advertising	Lead generation	Funnel optimization
Awareness, education, and trust.	Targeted traffic and message testing.	Direct outreach to contractor prospects.	Weekly measurement of the full path.

Build awareness and trust

Make contractors understand the problem — and see Taskiz as the simple solution.

- Short-form video & reels
- Instagram & Facebook posts
- LinkedIn posts
- Founder / product updates
- App demo clips
- Contractor pain-point videos
- Before-and-after workflow videos

Drive targeted traffic

Meta, Instagram, Facebook, and retargeting — pointed at the website, app store, or beta registration page.

FIRST CAMPAIGN TESTS FIVE MESSAGE ANGLES

- | | |
|--|--|
| 1 Running the business from your phone | 2 Stopping the use of five different apps |
| 3 Creating estimates and invoices faster | 4 Organizing jobs, customers, schedules in one place |
| 5 Simple software for solo contractors | |

Reach contractor prospects directly

Build a targeted list of potential Taskiz users and test direct outreach messages.

Google Maps prospecting	Local contractor directories	Audience research tools
Lead enrichment	Email verification	Direct outreach & CRM tracking

One simple conversion funnel

Measured weekly: where people click, register, download, and drop off.

Five content pillars

Real contractor problems, and how Taskiz solves them — never generic.

01

Contractor pain points

Texts, notes, and memory instead of a system.

02

Product demo clips

Customers, estimates, invoices, AI Copilot, syncs.

03

Before and after

Scattered chaos versus Taskiz, organized.

04

Education

What every solo contractor should track and why.

05

Trust & launch updates

Beta updates, founder notes, early feedback.

90-day content output target

Produced in monthly batches, refined each month based on what's working — enough volume to learn what contractors respond to.

36–48

short-form videos / reels

24–36

static posts / carousels

12–18

paid ad creative variations

9–15

product demo clips

6–9

founder / product updates

2–3

landing page / funnel improvement
rounds

Live within the first week

Day 1 Kickoff & access Confirm offer, audience, message; collect assets.	Day 2 Funnel setup Beta landing page, CTA, form, tracking.	Day 3 First content batch First videos, posts, ads, demo clips.	Day 4 Lead gen setup Prospect list, outreach script, pipeline.	Day 5 Campaign setup Meta, retargeting, creative, reporting.	Day 6 QA & soft launch Test flows; publish first posts and outreach.	Day 7 Campaign launch Ads, organic, and outreach all live.
--	--	---	--	--	--	--

Awareness and first market test

PUBLISH & RUN

- Publish organic content consistently
- Run Meta ads and retargeting
- Continue direct lead generation

TEST

- 2–3 ad angles
- 2–3 organic content angles

TRACK & LEARN

- Registrations, downloads, cost per lead/signup
- Top-performing videos and early user feedback
- Technical or onboarding friction

BY DAY 30 **Taskiz knows which content themes and paid messages generate the strongest interest.**

Content and funnel optimization

BUILD ON WINNERS

- Second content batch from early winners
- Turn best organic posts into paid ads
- Test one new contractor segment

IMPROVE THE FUNNEL

- Improve landing page messaging
- Add FAQ, screenshots, and demo videos

LISTEN & RESPOND

- Continue lead generation and outreach
- Identify top objections and answer them in content
- Track in-app activation

Validation and next-phase plan

CONCENTRATE

Double down on the best-performing message

Repurpose best videos into ads

PROVE IT

Build testimonial and beta user proof content

Follow up with warm leads

PLAN AHEAD

Review cost per registration/download and activation

Prepare the next 90-day growth plan

BY DAY 90

Real acquisition data, a tested content engine, a lead pipeline, early users, and a clear next-step growth plan.

A weekly growth meeting and report

WEEKLY GROWTH MEETING

- | | |
|---------------------------|-----------------------|
| Content performance | Signup quality |
| Paid ad performance | User activation |
| Lead gen progress | Feedback & objections |
| Registrations & downloads | Next-week priorities |

WEEKLY REPORT

- | | |
|-------------------------------|------------------------------|
| Posts published | Leads / signups / downloads |
| Best-performing videos | Cost per lead / signup |
| Traffic & engagement | Outreach sent & responses |
| Ad spend, impressions, clicks | Key learnings & next actions |

— RECOMMENDED BUDGET

The 90-Day Beta GTM Pilot package

One-time setup	\$2,500
Glampire management	\$3,000/mo
Ad spend	\$1,500/mo
Lead generation tools/data	\$300–\$500/mo

Includes organic content strategy, basic content production, campaign management, lead generation support, and funnel optimization.
Professional video shoots, large-scale production, and influencers are not included unless added separately.

ESTIMATED 90-DAY TOTAL

\$16.9–17.5K

Same disciplined beta budget — now fueling a faster, content-led launch.

Launch fast with a content-led GTM plan

AUDIENCE

Solo handyman businesses and small general contractors.

MESSAGE

Run your contracting business from your phone.

CONTENT ENGINE

Reels, demo videos, educational and pain-point posts.

FUNNELS

Organic, paid, retargeting, lead generation, registration/download.

GOAL

Generate interest, drive registrations, increase downloads, and validate demand.

Launch fast. Learn faster. **Then scale.**
